

Independent Limited Assurance Statement to Almarai on selection of sustainability metrics within their Sustainability Report 2024

To the Management of Almarai Company, Saudi Arabia

Introduction

Intertek Saudi Arabia Ltd. ("Intertek") was engaged by Almarai Company ("Almarai") to provide an independent limited assurance on the selection of consolidated environmental, social and General disclosures listed in the scope ('the selected disclosures') presented in the Sustainability Report for 2024 ('the Report'). In preparing and presenting the selected disclosures, Almarai applied the Global Reporting Initiative Sustainability Reporting Standards ("GRI Standards"). The assurance was performed in accordance with the requirements of International Federation of Accountants' (IFAC) International Standard on Assurance Engagement (ISAE) 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information.

Objective

The objectives of this limited assurance exercise were, by review of objective evidence, to confirm whether any evidence existed that the selected disclosures, as declared in the Report, were not accurate, complete, consistent, transparent, and free of material error or omission in accordance with the criteria outlined below.

Intended Users

This Assurance Statement is intended to be a part of the Sustainability Report for 2024.

Responsibilities

The management of Almarai is solely responsible for data collection, preparation and presentation of the selected disclosures aligned with selected criteria for reporting. Management is also responsible for the design, implementation, and maintenance of internal controls relevant to the preparation of the Report so that it is free from material misstatement, whether due to fraud or error.

Intertek's responsibility, as agreed with the management of Almarai, is to provide assurance and express an opinion in the Assurance Statement based on our verification following the assurance scope and criteria given below. Intertek does not accept or assume any responsibility for any other purpose or to any other person or organization. This document represents Intertek's independent and balanced opinion on the content and accuracy of the information and data held within the report.

Assurance Scope

The Assurance has been provided for selected sustainability performance disclosures presented by Almarai in the Report. The reporting boundary included data and information for the period 1st January 2024 to 31st December 2024 for the operations in Gulf Cooperation Council, (which includes Saudi Arabia, United Arab Emirates, Oman, Bahrain and Kuwait), Argentina, and United States of America with respect to selected GRI disclosures as indicated below. Assurance Criteria

Intertek conducted the assurance work in accordance with the requirements of 'Limited Assurance' procedures as per the following standards:

- International Standard on Assurance Engagements (ISAE) 3000 (revised) for 'Assurance Engagements other than Audits or Reviews of Historical Financial Information'.
- International Standard on Assurance Engagements (ISAE) 3410 for 'Assurance Engagements on Greenhouse Gas Statement'.

A limited assurance engagement comprises of limited depth of evidence gathering including inquiry and analytical procedures and limited sampling as per professional judgement of assurance provider.

A materiality level of 5% was applied. Assessment of compliance and materiality was undertaken against the stated calculation methodology and criteria.

Methodology

Intertek performed assurance work using a risk-based approach to obtain the information, explanations and evidence that was considered necessary to provide a limited level of assurance. The assurance was conducted by desk review with regard to the reporting and supporting records for the fiscal year 2024. Data and information supporting the Statement were historical in nature and proven by evidence. Our assurance task was planned and carried out during Jan-Mar 2025. The assessment included the following:

- Review of processes and systems used to gather and consolidate data.
- Examined and reviewed documents, data, and other information made available digitally.
- Conducted virtual interviews with key personnel responsible for data management.
- Assessment of appropriateness of various assumptions, estimations, and thresholds used by Almarai for data analysis.
- Review of sustainability disclosures on a sample basis for the duration of 1st January 2024 to 31st December 2024 was carried out remotely through virtual interactions and screen sharing tools.
- Appropriate documentary evidence was obtained to support our conclusions on the information and data reviewed.

Conclusions

Intertek reviewed the selected disclosures provided by Almarai in the Sustainability Report 2024 for the reporting period from 1st January 2024 to 31st December 2024. Based on the procedures performed and the evidence obtained, Intertek concludes with limited assurance that nothing has come to our attention that causes us to believe that the selected disclosures presented in Almarai's sustainability report 2024, are not fairly stated, in all material aspects, based on the reporting criteria.

Intertek's Competence and Independence

Intertek is a global provider of assurance services with a presence in more than 100 countries employing approximately 44,000 people. The Intertek assurance team included competent sustainability assurance professionals, who were not involved in the collection and collation of any data except for this Assurance Opinion. Intertek maintains complete impartiality towards any people interviewed.
